**Subject:** Re: LPRSA - EPA request - table from BERA

Jennifer:

The LPRSA RI/FS BERA is still undergoing CPG review and the requested information can not be provided at this time.

Thank you.

Rob and Bill,

When looking at wildlife prey assumptions, does the CPG have a table that lists which samples (and their size, species, and concentration) were used when developing the EPCs for focal species? I believe this typically part of an appendix to the draft BERA, but if such a draft table is available now, Chuck and I would appreciate having a look at in the interim.

Thanks in advance,

Jennifer LaPoma
